

Course 991: Required Reading: Text Seminar Information Guide

Thank you for your interest in the Learner's Edge Book Study!

~How do we choose a book and how is it approved?

The text for the book study needs to be educational and of graduate level content: a mix of research and application is best with a recent copyright and credible length (at least 100pps). We encourage you to align your book study and text choice with your building or district initiatives but this is not a necessity.

After you have decided on a text(s) send the title, author, copyright and brief description to info@LearnersEdgeInc.com for approval.

Once your text is approved, you will be contacted by a Learner's Edge staff member to begin the official registration for the course.
