

Course 991: Required Reading: Text Seminar

Thank you for your interest in the Learner's Edge Book Study!

How is the book/text chosen and approved?

The text for the book study needs to be educational and of graduate level content: a mix of research and application is best with a recent copyright and credible length (at least 100pps). We encourage you to align your book study and text choice with your building or district initiatives but this is not a necessity. **After you have decided on a text, email the title, author, copyright and brief description or web link to instructor@LearnersEdgeInc.com for approval --prior to registration.** Once your text is approved, you will be contacted by a Learner's Edge staff member to begin the official registration for the course.

How many credits/clock hours are available for the book study course?- 3 credits or 60 clock hours. The overview, below, is required for both the 3 credit and 60 clock hour options. The course syllabus will provide detailed information for each requirement.
